

Wacky Cake

- 1 1/2 cups flour
- 1/3 cup unsweetened cocoa powder
- 1 cup sugar
- 1 tsp baking soda
- 1/2 tsp salt
- 1 tsp white vinegar
- 1 tsp vanilla extract
- 1/3 cup vegetable oil
- 1 cup water

Grease 13x9 pan. In the greased pan, combine all dry ingredients. Whisk with fork or small whisk to combine. Make 2 small wells on the sides and 1 large well in the middle of the dry ingredients. Pour the vanilla and vinegar into the small wells and pour the oil into the big well. Pour the water over the top and whisk again to combine. Bake for 30 to 35 minutes in a 350-degree oven. Cool completely, and add icing of your choice, if desired.
